IDENTITI ICT FOR CONNECTED SECURE BUSINESSES

Company Profile

About **IDENTITI**

Identiti ICT, the technology solutions division of SIS Global, helps organizations build, secure and support the technology environments behind their operations.

From enterprise devices and infrastructure to networking, cybersecurity, application delivery and software solutions, we bring together established technology partners with local implementation and support capabilities.

Our approach extends beyond product supply. We work with clients to understand their requirements, identify the right technologies and support their deployment across the technology lifecycle.

Our Vision

To be a trusted technology partner enabling organizations to operate more securely, connect more effectively and grow confidently through reliable, innovative and future-ready ICT solutions.

To deliver integrated ICT solutions that bring together the right technologies, trusted partners and local expertise, supporting clients from consultation and supply through deployment and ongoing support.

Our Capabilities

01
CONNECTIVITY & NETWORK INFRASTRUCTURE

02
DATA CENTERS & CYBERSECURITY

03
SMART CITIES & BUILDINGS

04
INTELLIGENT OPERATIONS & AUTOMATION

05
AUDIOVISUAL & DIGITAL EXPERIENCE

06
PHYSICAL SECURITY SOLUTIONS

07
HARDWARE, DEVICES & IT INFRASTRUCTURE

08
PRINTING, IMAGING & DATA CAPTURE

09
SOFTWARE, CLOUD & LICENSING

01/09

CONNECTIVITY & NETWORK INFRASTRUCTURE

We design, implement and support secure, scalable networks that keep offices, campuses, branches and data centers connected. Our solutions bring together enterprise networking, Wi-Fi, indoor cellular coverage, structured cabling and network access control, tailored to your users, applications and operating environment. From new deployments to infrastructure upgrades, we help organizations maintain reliable connectivity and prepare for future growth.

01
ENTERPRISE NETWORKING:

LAN/WAN, SD-WAN and multi-site connectivity

02
ENTERPRISE WI-FI:

Wireless site surveys, RF planning, indoor and outdoor coverage

03
STRUCTURED CABLING AND FIBER:

Copper and fiber infrastructure, racks, termination, testing and certification.

04
INDOOR CELLULAR COVERAGE & DAS:

CEL-FI and DAS solutions, with RF surveys and coverage planning, from design and supply to installation and testing.

05
LIFECYCLE SUPPORT:

Network assessment, design, integration, monitoring & performance optimization.

06
NETWORK ACCESS CONTROL & SECURITY

Identity-based authentication, endpoint visibility, guest access, posture assessment & network segmentation.

02/09

Smart Cities & Buildings

We integrate building systems, connected devices and digital platforms to give organizations greater visibility and control over their physical environments. From individual facilities to campuses and city infrastructure, our solutions bring operational data together to improve resource efficiency.

01

SMART CITY INFRASTRUCTURE:

Connected lighting, parking, public assets and environmental monitoring integrated through centralized platforms.

02

SMART BUILDINGS & BMS INTEGRATION:

Unified monitoring & control of building systems, including HVAC, lighting & the modernization of legacy platforms.

03

IOT & PREDICTIVE OPERATIONS:

Connected sensors, equipment condition monitoring & asset tracking that support early fault detection & predictive maintenance.

04

ENERGY & UTILITY MANAGEMENT:

Smart metering, consumption dashboards and demand monitoring that help identify inefficiencies and optimize resource use.

05

DIGITAL TWINS & INFRASTRUCTURE INTELLIGENCE:

Building information models and live operational data combined into visual environments for monitoring, maintenance and planning.

03/09

DATA CENTERS & CYBERSECURITY

We design and implement secure, resilient data center environments, with cybersecurity integrated into the infrastructure architecture. Our solutions combine compute, storage and data protection with controls that safeguard users, applications and critical information. Whether building new infrastructure or modernizing existing systems, we help organizations strengthen security, maintain availability and recover from disruption.

01
DATA CENTER INFRASTRUCTURE:

Racks, power protection, cooling and supporting infrastructure designed for reliable operation.

02
COMPUTE, STORAGE & VIRTUALIZATION:

Enterprise servers, shared storage and hyperconverged platforms aligned with your workloads and capacity requirements.

03
BACKUP & DISASTER RECOVERY:

Immutable backups, data replication and tested recovery solutions that support business continuity.

04
CYBERSECURITY & DATA PROTECTION:

Integrated protection across networks, endpoints, applications, email and sensitive information.

05
IDENTITY & ACCESS MANAGEMENT:

Single sign-on, multi-factor authentication and privileged access controls that secure access to critical systems.

06
SECURITY MONITORING & IT/OT PROTECTION:

Centralized security monitoring, threat detection and segmentation across enterprise and operational environments.

04/09

INTELLIGENT OPERATIONS & AUTOMATION

We connect systems, data and workflows to give organizations clearer operational visibility and greater control. Through unified monitoring, AI-powered analytics and process automation, we help teams respond faster, reduce manual work and make informed decisions.

01

UNIFIED COMMAND & CONTROL:

Centralized dashboards, real-time monitoring, alarm management and coordinated incident workflows.

02

AI VISION & EDGE ANALYTICS:

Video-based insights for occupancy, queue monitoring, safety and event detection.

03

BUSINESS PROCESS AUTOMATION:

Digital approvals, robotic process automation (RPA), optical character recognition (OCR) and intelligent document processing.

04

SYSTEMS & DATA INTEGRATION:

APIs and middleware connecting applications, data sources, cloud services and on-premises systems.

05 /09

Audiovisual
& Digital Experience

We create intuitive audiovisual environments that make collaboration seamless and communication clear from meeting rooms and reception areas to command centers.

01

AV DESIGN & INTEGRATION:

Displays, audio and intuitive controls brought together in one integrated system.

02

VIDEO WALLS & CONTROL ROOMS:

LED/LCD video walls, processors and operator consoles for clear, centralized monitoring.

03

MEETING ROOMS & VIDEO CONFERENCING:

Microsoft Teams Rooms with Logitech for seamless in-room and remote collaboration.

04

DIGITAL SIGNAGE & INTERACTIVE DISPLAYS:

Managed content, interactive kiosks and wayfinding that inform and engage.

05

PROFESSIONAL AUDIO:

Clear, consistent sound through PA, paging and multi-zone audio systems.

06/09

PHYSICAL SECURITY SOLUTIONS

We integrate surveillance, access control and detection technologies into a coordinated security environment. Our solutions help organizations monitor activity, identify threats and manage access across buildings, campuses and critical sites enabling faster, more informed responses to security incidents.

01

CCTV & AI VIDEO ANALYTICS:

IP, PTZ and thermal cameras, centralized video management and intelligent event alerts

02

INTRUSION & PERIMETER PROTECTION:

Fence sensors, thermal imaging, radar detection, road blockers and bollards to protect site boundaries.

03

ACCESS & ENTRY MANAGEMENT:

Card, mobile and biometric authentication, pedestrian gates, vehicle barriers, number plate recognition and under-vehicle screening.

04

INTEGRATED SECURITY MANAGEMENT:

Unified monitoring of alarms and events, with coordinated incident workflows through physical security information management (PSIM)

07/09

Hardware, Devices & IT Infrastructure

We specify, source and prepare business devices and enterprise infrastructure to match your users, workloads and operational requirements. From workplace equipment to servers and storage, we help organizations equip their teams, refresh their technology and support future growth.

01

BUSINESS DEVICES:

Laptops, desktops, tablets and mobile devices for office, remote and field teams.

02

WORKSTATIONS & PERIPHERALS:

Professional workstations, displays, docking stations and collaboration accessories.

03

SERVERS, STORAGE & BACKUP:

Enterprise servers, storage systems and backup appliances for business applications and data.

04

INFRASTRUCTURE ESSENTIALS:

Networking equipment, racks, uninterruptible power supplies (UPS) and power protection.

08/09

PRINTING, IMAGING & DATA CAPTURE

We supply printing, imaging and data-capture equipment matched to your document workflows and operational needs. From everyday office printing to barcode scanning and RFID, we help teams digitize information, identify assets and improve accuracy across offices, warehouses and field operations.

01

OFFICE PRINTING & IMAGING:

Business printers, multifunction printers and document scanners.

02

SPECIALIST PRINTING:

Large-format printers, barcode printers and label printers for technical and operational requirements.

03

BARCODE SCANNING & MOBILE COMPUTING:

Barcode scanners and rugged handheld computers for inventory, logistics and field teams.

04

RFID & ASSET IDENTIFICATION:

RFID readers, tags and supporting equipment for asset tracking and identification.

identiti
Hardware & Sofware Supplies ICT

09/09

SOFTWARE, CLOUD & LICENSING

We provide software licensing, cloud subscriptions and business application services aligned with your users, workloads and operational needs. From productivity tools and enterprise platforms to SaaS deployment, application configuration, customization and systems integration, we help organizations adopt and connect the right technologies, supported by suitable hosting, licensing and renewal options.

01

PRODUCTIVITY & COLLABORATION:

Business applications, email, communication and collaboration platforms.

02

CLOUD, SAAS & BUSINESS APPLICATIONS

Cloud subscriptions, SaaS deployment, application configuration, customization and systems integration.

03

ENTERPRISE SOFTWARE:

Operating systems, databases, virtualization, security and management tools.

04

LICENSING & RENEWALS:

New licenses, subscription renewals and upgrades, with guidance on plans and user requirements.

Our
Delivery Approach

01

DISCOVER & ASSESS

Assess your infrastructure, conduct site surveys and define business and technical requirements.

02

DESIGN & ARCHITECT

Develop the solution architecture and delivery plan around your operational goals.

03

SOURCE & INTEGRATE

Source the right technologies and integrate them with your existing systems.

04

DEPLOY & VALIDATE

Install, configure and test the solution, with documentation and knowledge transfer before handover.

05

SUPPORT & OPTIMIZE

Provide ongoing technical support and performance optimization within agreed scope and service levels.

Why Choose Us

identiti
Hardware & Sofware Supplies ICT

END-TO-END CAPABILITY

Design, supply, integration, deployment and support through one partner.

LOCAL UNDERSTANDING, REGIONAL REACH

Saudi market knowledge, backed by SIS Global's regional presence.

FLEXIBLE & SCALABLE DELIVERY

From a single requirement to a full infrastructure modernization program.

BUILT AROUND YOUR REQUIREMENTS

Solutions shaped by your environment, existing infrastructure & business priorities.

A Message
From Our CEO

Dear Valued Partners,

For more than 25 years, SIS Global has been committed to helping organizations grow through innovation, operational excellence, and trusted partnerships.

Built in Saudi Arabia and expanding across international markets, we combine global best practices with deep local expertise to deliver lasting business value.

Our mission has always been simple: to help organizations operate more efficiently, adapt with confidence, and achieve sustainable growth through a trusted long-term partnership.

As industries continue to evolve, we remain committed to excellence, investing in our people, embracing innovation, and building enduring relationships with every client we serve.

Thank you for your trust and continued partnership.
